WE SAVE LIVES!

This page applies to students registering for Spring Term 2010 or later.

About behind-the-wheel scheduling

If you have not already selected your **preferred** behind-the-wheel schedule, please do so now:
[BTW Schedule](#)

You will be notified when your drive time is confirmed. If you have not received it one week before the 1st day of class, please contact our office.

Behind the wheel lessons are given in two hour sessions following the guidelines set by the ODOT. ODEC provides vehicles equipped with instructor brake and mirrors. One hour is spent driving. The other hour is spent observing. All vehicles are four-door with automatic transmissions and A/C. Lessons may begin at any one of our many locations.

Parents and Teens will be able to access their behind-the-wheel scores and comments by using the online grade book. You will receive an e-mail after the 1st day of class that will include instructions on how to access the scores and comments. Please contact our office if you do not receive this by the 2nd day of class.

*****Note: Student must have permit in their possession and be properly dressed for their BTWs (NO FLIP FLOPS)**
